Dear Mis. [REDACTED]

Receipt of your letter dated September 10, 1951 is  
hereby acknowledged.

Your letter will be forwarded to the office interested  
in these matters.

If further information is desired you will be contacted.

Your action in writing this Command is appreciated.

Yours very truly,

*Bryan L. Davis*

BRYAN L. DAVIS  
Colonel, USAF  
Air Adjutant General

Ramsey, Illinois

September 10th, 1951.

Dear Sirs :

Perhaps your office might find the enclosed clipping from the

Vandalia Leader , of August 30 issue . The incident referred to occurred

on the evening of August 26th. 27th.

"Whether it was a military craft from Scott Field hasn't been made known here . If we can be of any further help and if you desire reports of this nature , if and when they should happen here , please advise.

Sincerely,

[REDACTED]

Thursday, August 30, 1951.

## Strange Object in Sky Baffles Local Airmen

It wasn't a flying saucer! Nor was it a conventional type airplane! But whatever it was, it has aroused the curiosity of at least five persons who saw it soaring through the air Monday night.

"It was a big orange light with blinding intensity when I first noticed it over the southwest corner of the airport," Ray Williams told the Leader. "I had just taxied out onto the runway preparing to take a flight around the city when I noticed the light. It was between 8 and 8:30 p.m. I called over the radio to the CAA official on duty Albert Drackle, and to Paul Reese and asked them to take a look.

"The lighted object disappeared into the west and we decided maybe there was nothing to it. So I decided to continue with my flight plans," Williams stated.

"Shortly after I had taken off I noticed the light again, approaching my plane. It came directly at me and then circled my plane twice before heading toward Greenville. I followed it and it made a circle round that town and came back toward Vandalia. I last saw it near the country club. The CAA radioed a transport pilot who was passing over Vandalia at the time at about 20,000 feet and he too saw the object.

"It was all very spooky," the Vandalia airman said. "It wasn't an airplane but whatever it was the light was on the tail of it, and there was a small red light on top. Probably it was some military craft from Scott Field making a test run."

The lighted object which appeared to have a 10 to 12 inch lens, was also seen by Dwight Kerns in St. Elmo the same evening.
